What did you enjoy most about the program?

I very much appreciated the availability of Albert, in person and by mail. I felt supported in the process of taking this course and encouraged to explore myself and the concepts. The in person reviews and conversations helped to further connect to the applications of the concepts taught. I felt challenged to look at my self, my perspective with clients and how I engage with the world around me.

What can we do to improve the program?

I think many things have changed while I was in the process of taking this course. some re-arranging, some editing and some updating were done on materials, placement and process. The website still has some frustrating bugs. but fewer than it had. I know that this is natural when things are in a state of change.

What did you find least useful or relevant?

I did find some of the changes that were made, without communication about them, frustrating. Thankfully usually easily cleared up with a message.
